product per year

A Diverse Medication Adherence Packaging Portfolio

Our medication adherence solutions include a wide range of medication packaging and labeling supplies, to enhance medication administration and adherence in a variety of non-acute care settings. We offer single-dose blister cards and multimed adherence cards, in addition to software that streamlines packaging and labeling workflows while increasing accuracy.

Single-Dose Blister Cards

Omicell is the North American manufacturing leader of single-dose blister cards, which are the standard of care for medication administration in many care settings. Our easy-to-use blister cards allow staff to clearly identify whether medications have been administered, and provide visual reinforcement for the point of re-order.

- Heat Seal, Cold Seal, and Reclaimable Cards
- Dose Formats: 14, 15, 16, 28, 30, 31, 32, 60, 62, 90
- Economical 2-Piece offerings and Efficient 1-Piece offerings
- Unit-Dose Offerings for First Doses

MultiMed Adherence Packaging

Omicell multidose cards are designed for both patient safety and pharmacy accuracy. They clearly organize multiple medications in an easy-to-follow format that provides instant visual reinforcement of what to take and when.

Our multidose portfolio is offered in a variety of sizes and geometry, with easy-to-read days of the week and time passes. Much of our portfolio also allows for in-pharmacy customization of pharmacy branding, as well as a custom consolidated label with patient and medication information.

Automation Partners

Omicell medication adherence packaging compatibility extends beyond Omnicell equipment and automation solutions. We actively collaborate and maintain relationships with other leading automation vendors to ensure seamless workflows and scalable options, for any pharmacy size. We offer a full range of compatible consumables for partners and solutions including:

- Dosis® by Manchac
- Parata® SynMed® XF and SynMed® Ultra
- McKesson® Canada BlistAssist®
- RxSafe® RapidPakRx™

Labels and Printing

Omicell is a leading manufacturer of prescription labels. We offer a variety of laser labels and thermal transfer labels whose geometries are compatible with several of the leading software vendors. We additionally offer the ability to represent your pharmacy's brand through custom label solutions for all your pre-packing and patient-specific labeling needs.

Guided Packing

Omicell's easy-to-use, web-based application lets you provide adherence packaging services quickly and with minimal start up costs. Omnicell's Guided Packing software and SureMed™ multimед packaging provide your pharmacy with multiple labeling options and flexibility to ensure effective and accurate medication administration.

Card options allow for both weekly and monthly packaging, to optimize your pharmacy's filling practices.

Partnering with Omnicell® Medication Adherence Puts Superior Outcomes Within Reach

“

Omnicell consumables come on time, like clockwork. Not only is the price competitive; the timeliness helps us to be able to do our job. And our job is so critical.”

- **Miriam Cho**
MAC Rx
