

SureMed by Omnicell 31-Day Cold Seal Multimed Blister Packaging

Differentiate Your Pharmacy by Offering Multimed Packaging Services

A cold seal tri-fold, multiple medication adherence package that's a great alternative to heat sealed cards. The SureMed® by Omnicell® 31-Day cold seal cards enable clear and easy packaging and labeling of multiple medications in a disposable, blister card format. Cold seal blister cards are efficient, reliable, and ideal for any size operation.

Features

- No heat, pressure sensitive seal process
- Tri-fold flap for multiple labels
- Readable timepasses and days of the week on the inside of the booklet
- Perfect for either modest or large volume operations

Benefits

- Additional flap enables you to clearly display multiple medication labels
- Large blister is suitable for multiple medications
- Reverse side numbering assists with the filling process
- Pressure sealing reduces sealing time, increases productivity

Required Materials

- Card: 301-17
- Blister: 204-10
- Sealing Template: 657-31
- Roller: 660-00

31-Day Cold Seal Multimed Blister Card Assembly Instructions

Peel

Remove the pressure sensitive liner from the portion of the card with open cavities. Ensure the liner stays attached to the foil portion of the card to prevent glue from drying out prior to sealing.

Insert

Place the card on the sealing template (glue side up). Insert the blister sheet into the card. Lower the rest of the sheet into the remaining holes.

Fill

Using the printing on the inside of the card as a guide, fill the appropriate blister cavities with the required medication.

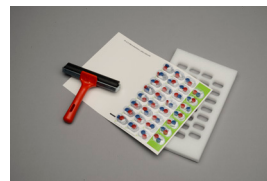

Fold and Seal

Remove the liner from the foil side of the card. Fold the sealing surface to cover the filled blister, using even pressure to seal. Place the prescription labels on the inside cover of the card.

Finished

It's that easy!
